History

Metalogo was founded by Flore Gendron in 2000, one year after the death of her father. At the visitation for Mr. Gendron the funeral parlor gave family members plastic pins in the form of doves. These pins were meant to identify family members. Mrs. Gendron kept this pin in memory of her father. One year later she still had this pin and had the idea of creating a more formal metal pin (also in the form of a dove.) Mrs. Gendron then sent a sample to several funeral homes and many were interested in this high quality pin. Metalogo was founded.

Mrs. Gendron then proceeded to design several models including pins personalized to individual funeral homes. Following this a line of crucifix was developed that could be placed onto a coffin or an urn. These crucifix are made of solid brass and are heavier and much more resistant than the ones that were available at the time.

Metalogo quality of workmanship has brought forth a respectable clientele that has allowed the company to excel. We offer many products: pins, crucifix and funeral bags. Our funeral bags are available in several different sizes to accommodate urns or other personal items. These bags are made from high quality velvet which allows us to print each funeral home’s personalized logo. These have been a huge success. Metalogo also offers many other products such as mini-urns, lockets (for ashes), picture frames, appliques for urns and covers for stretchers.
